## Triple Barrel

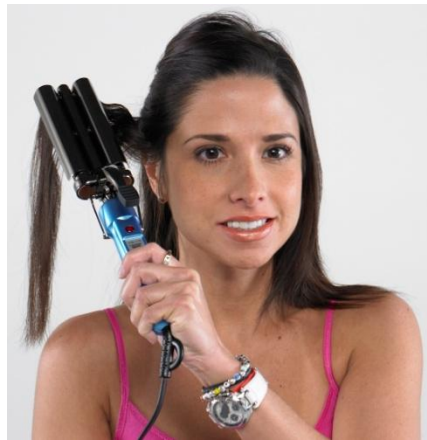

**FOR BEST RESULTS USE HOT TOOLS  
3-Barrel Waver Iron Model# HTBL1175**

Titanium surface for maximum heat distribution and snag-free styling make this iron a great choice to create natural looking waves on any hair type.

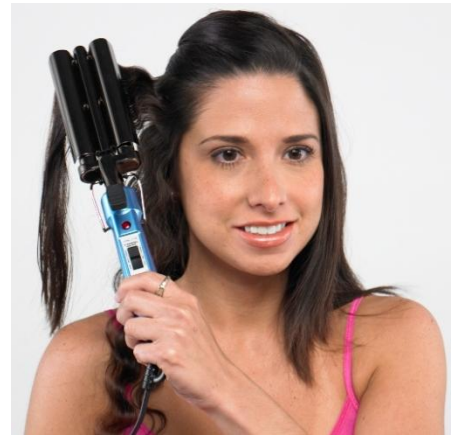

### STEP 1

On pre dried hair start at the top of the head and using horseshoe sections around the head, pre-section the hair all the way down to the hairline.

### STEP 2

Begin as near to the scalp as possible, and place a ½ inch section of hair in the iron clamp and hold for 5 seconds.

### STEP 3

Release the hair and move the iron down the section of hair equal to the width of the iron.

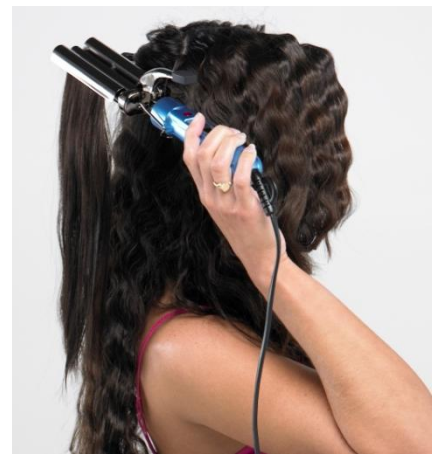

**STEP 4**

Move to the back section keeping the top section of hair secure with a hair clip.

**STEP 5**

Release the next pre-sectioned hair and repeat.

**STEP 6**

Continue in this fashion all the way up the head to the top.

**STEP 7**

Finish by releasing the last section and repeating steps 2-4.

**TIPS FROM THE PROS**

➔ To use the iron to create volume only use the waver at the scalp under the top section.
